

# Aluminum Full View Doors

## Amarr®3552

**Amarr 3552 Aluminum Full View doors** are constructed of 2" thick extruded aluminum rails and stiles that can be fitted with a variety of full-view glazing options. Perfect for automotive showrooms and repair centers, car washes, fire houses, restaurants, and sports complexes; our aluminum doors create a clean style for any facility. Includes the **WaterLok** joint and glazing seal system featuring new and improved wide tongue and groove section joints with leading-edge bulb seal and bottom weather seal for enhanced air-tight and water-resistant performance. The **ClearView Aluminum Strut System** provides added strength and durability for wind load and wide doors without restricting the viewing area.

## CONSTRUCTION

### Amarr 3552

Heavy-Duty Aluminum door

- 2" thick extruded aluminum rails & stiles
- Available in 1" width increments
- Available in odd heights

**Track:** All Amarr doors are available with both 2" or 3" track in Standard Lift, High Lift, Vertical Lift, Low Headroom, and Follow the Roof Pitch. Custom track configurations are also available. For drawings and more information, please visit [www.amarr.com](http://www.amarr.com).

**Springs:** Torsion springs are oil tempered, helical wound and custom computed for each door for a minimum 10,000 cycle life. Optional springs are available up to 100,000 cycle life.

**Standard Hardware:** Galvanized steel hinges and track brackets. All rollers have minimum 10-ball bearings.
